

PRODUCT DATA SHEET

STAINLESS STEEL ROUND Water Tanks

This Stainless Steel corrugated round rainwater tank can be built to hold small and large volumes of water and it not only looks good, but it is sustainable, hygienic and comes with a 30-year non corrosion with a 15-year manufacturing Warranty.

Features & Benefits:

- Can be custom made to size
- Made from 304 or 316 Stainless steel
- Comes with a 30-year corrosion warranty
- Capacity can be up to 29,838 litres
- Choose to contrast or feature with any structures
- Hygienic as no leeching by the stainless steel
- Reflects heat and keeps the water cool
- All steel with no plastic lining and recyclable
- Minimal emissions footprint in manufacture
- Comes with Inlet, Overflow and Outlet fittings
- You can nominate positions of the fittings
- Can be placed on concrete, crusher dust or timber structures
- Can withstand Australia's harsh conditions
- Bushfire resistant by keeping its structural integrity
- Family owned company in SE Queensland
- Come checked for quality assurance

Recommended for:

- Storage of a large volume of water
- Modern design to blend with architectural features
- Storage of drinking water
- Agricultural and horticultural purposes
- The harsh Australian climate
- Withstanding bushfires

Inclusions

- **Inlet strainer** (400mm) to strain debris, to shield water from light, and reduce algae growth
- **Overflow fitting** (90 or 100mm) with inbuilt SS gauze to prevent mosquitoes from entering
- **Outlet fitting:** A 25mm outlet and ball valve
(A range of additional fitting can also be ordered)
